

Subject: WATER PIPE THAWING MACHINE

Whereas, the Village of ClarkFork, owns a Pipe thawing machine, which is used for the express purpose of thawing frozen water lines, and Whereas, the Village assumes the responsibility for city water lines up to the private property lines, Then let it be Resolved that the operator, of this machine, who is appointed by the Village Board shall be paid at the rate of \$3.00 per hour by the Village of Clark Fork, and Whereas the Village does not assume any responsibility for any frozen water lines inside any private property lines, Then let it be Resolved that the man appointed by the Board, to operate said machine, shall make a charge of \$3.00 per hour for his labor, plus a charge of \$1.00 per hour machine rental, with a minimum charge of 1 hour or \$4.00 per call. Machine rental to be made payable to the Village of Clark Fork with the operator to be held responsible for such charge.

Whereas the Village Board realizes that it is sometimes necessary due to very adverse conditions, that this thawing machine be needed outside the Village limits, and as a matter of courtesy by the Village, Then let it be Resolved, that the operator of said machine be allowed by the Village Board to take said machine outside the Village limits at his discretion, providing that it is not needed in the Village at the immediate time and that a charge be made of \$1.00 per hour for machine rental for the complete absence of said machine. The charge for transportation and for operation of said machine shall be determined by the operator.
