INDEPENDENT AUDITORS' REPORT

Mayor and City Council
City of Clark Fork, Idaho

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the City of Clark Fork, Idaho, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Clark Fork's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the City of Clark Fork, Idaho, as of September 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

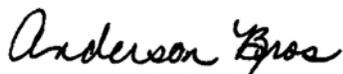

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of City's Share of Net Pension Liability and the Schedule of City's Contributions on page 26, and the budgetary comparison information on pages 27 through 28, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion & Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated January 21, 2021, on our consideration of the City of Clark Fork, Idaho's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Clark Fork's internal control over financial reporting and compliance.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City's combined financial statements include the accounts of all City operations. The criteria for including organizations as component units within the City's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board's (GASB) Codification of Government Accounting and Financial Reporting Standards, include whether:

- ✓ the organization is legally separate (can sue and be sued in their own name)
- ✓ the City holds the corporate powers of the organization
- ✓ the City appoints a voting majority of the organization's board
- ✓ the City is able to impose its will on the organization
- ✓ the organization has the potential to impose a financial benefit/burden on the City
- ✓ there is fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City of Clark Fork has no component units.

The City of Clark Fork is a municipality of the State of Idaho. The City has oversight responsibility and control over all activities related to The City's functions. The City is not included in any other governmental "reporting entity" as defined in GASB pronouncements, since the public elects the City council members.

Basis of Presentation, Basis of Accounting

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government (the City). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or part by fees charged to external parties.

The statement of activities presents a comparison between direct and program revenues for the business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees, fines, and charges by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City's funds, including its fiduciary funds and blended component units. Separate statements for each fund category- *governmental, and proprietary*-are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The City reports the following major governmental funds:

General Fund. This is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Street Fund. This accounts for the revenues and expenditures as they relate to the maintenance and operation of the streets of the City.

The City reports the following major enterprise funds:

Water Enterprise Fund. The Water Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the costs (expenses, including depreciation) of providing water services to the general public on a continuing basis are financed through user charges.

Measurement Focus, Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements. The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, sales taxes, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the City Treasurer for the purpose of increasing earnings through investment activities. The pool's investments are reported at cost at September 30, 2020. Earnings on the pooled funds are apportioned and paid or credited to the funds monthly based on the average daily balance of each participating fund.

Cash and Cash Equivalents

The City considers cash and cash equivalents in proprietary funds to be cash on hand and demand deposits. In addition, because the Treasury Pool is sufficiently liquid to permit withdrawal of cash at any time without prior notice or penalty, equity in the pool is also deemed to be a cash equivalent.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Receivables and Payables

All trade and property tax receivables are shown net of an allowance for uncollectibles.

Receivables for State Liquor Revenues and State Revenue Sharing are recorded as revenue in the general fund. Receivables for State Highway User's Tax are recorded as revenue in the street fund.

The City records enterprise fund charges as earned, not when collected.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (i.e. roads, sidewalks, street lights, and similar items) are, reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$500 and an estimated useful life in excess of two years.

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation on exhaustible assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position. A composite depreciation rate is used for infrastructure assets. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	15 - 30
Building Improvements	15 - 30
Water Distribution System	30 - 60
Machinery & Equipment	3 - 10
Vehicles	3 - 10

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Compensated Absences

All employees are eligible for vacation and sick leave. Employees can accrue up to 60 hours of vacation per calendar year. The maximum unused vacation leave an employee may carry over is 20 hours. Upon termination, an employee will be paid for unused vacation. The liability for unused vacations is insignificant and has been included with accounts payable and accrued expenses in the accompanying financial statements.

The City's sick leave policy allows employees to accrue 4 hours of sick pay per month and can carry over a maximum of 120 hours. Employees are not paid for unused sick pay on termination.

Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities.

Interfund Transactions

Interfund transactions are reflected as loans, services provided, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as “interfund balances”. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “interfund balances” as well.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has one item, pension plan, which is reported in the government-wide statement of net position and qualifies for reporting in this category at this time.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items that qualify for reporting in this category. One item, unavailable revenue, is reported only in the governmental funds balance sheet. The other item, pension plan, is reported in the government-wide statement of net position. These amounts are deferred and recognized as inflows of resources in the period that the amounts become available.

Fund Balance

The City follows GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which redefined how fund balances of the governmental funds are presented in the financial statements.

Fund balances are classified as follows:

Nonspendable—Amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted—Amounts that can be spent only for specific purposes because of the state or federal laws, or externally imposed conditions by grantors or creditors.

Committed—Amounts that can be used only for specific purposes determined by a formal action by City Council ordinance or resolution. This includes the budget reserve account.

Assigned—Amounts that are designated by the Council for a specific purpose but are not spendable until a budget ordinance is passed by the City Council.

Unassigned—All amounts not included in other spendable classifications.

See accompanying independent auditors’ report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The details of the fund balances are included in the Governmental Funds Balance Sheet (page 5). Restricted funds are used first as appropriate. Assigned Funds are reduced to the extent that expenditure authority has been budgeted by the Council or the Assignment has been changed by the Mayor. Decreases to fund balance first reduce Unassigned Fund balance; in the event that Unassigned Fund Balance becomes zero, then Assigned and Committed Fund Balances are used in that order. The City reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, or laws and regulations of other governments.

Extraordinary and Special Items

Extraordinary items are transactions that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Council and that are either unusual in nature or infrequent in occurrence. Neither type of transactions occurred during the fiscal year ended September 30, 2020.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property Taxes and Deferred Tax Revenues

Property taxes levied for 2019 are recorded as receivables. In the fund financial statements, property taxes are recorded as revenue in the period levied to the extent that they are collected within 60 days of year-end, in accordance with the modified accrual basis of accounting. Receivables collectible after the 60-day date are reflected in the fund financial statements as deferred revenues. In the government-wide financial statements property taxes are recorded as revenue in the period levied, in accordance with the accrual basis of accounting.

Property taxes are levied on the third Monday of September and attach as an enforceable lien on property. They are payable in two installments on December 20 of the current calendar year and June 20 of the next calendar year. Assessed values are established by the county assessor. The taxes are collected and remitted to the City by Bonner County.

Fair Value of Financial Instruments

The City's financial instruments are cash, cash equivalents, receivables, accounts payable, debt and other obligations. The recorded values of these assets and liabilities approximate fair value.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 2 – CASH AND INVESTMENTS

General

State statutes authorize the City's investments. The City is authorized to invest in demand deposits, savings accounts, U.S. Government obligations and its agencies, obligations of Idaho and its agencies, fully collateralized repurchase agreements, prime domestic commercial paper, prime domestic bankers acceptances, bonds, debentures or notes of any corporation organized, controlled and operating within the U.S. which have at their purchase an "A" rating or higher, government pool and money market funds consisting of any of these securities listed. No violations of these categories have occurred.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk as it deposits funds in financial institutions that are members of the U.S. Federal Deposit Insurance Corporation (FDIC) and has never experienced such a loss. As of September 30, 2020, the City's deposits were exposed to custodial credit risk as follows:

Deposits without exposure to custodial credit risk:

Amount insured by FDIC or other agencies	\$ 135,086
Total deposits without exposure to custodial credit risk	135,086

Deposits with exposure to custodial credit risk:

Amount collateralized with securities held in trust, but not in City's name	1,066,421
Amounts uninsured-exposed to custodial credit risk	-
Total deposits with exposure to custodial credit risk	1,066,421
Total bank balance (deposits)	\$ 1,201,507

The carrying amount is displayed as follows in the financial statements:

Statement of net position	
Cash and investments	\$ 1,182,479
Restricted cash and investments	-
	\$ 1,182,479

Cash and investments at September 30, 2020, consist of the following:

Cash	
Deposits with financial institutions	\$ 114,895
Petty cash on hand	256
Cash equivalents	
Deposits with Idaho state investment pool	1,067,328
	\$ 1,182,479

State Investment Pool

Investments in 2a7-like pools are valued based upon the value of pool shares. The City invests in one 2a7-like pool, the Idaho State Investment Pool. The advisory board of the Idaho State Investment Pool is composed of members appointed pursuant to the requirements of the Public Funds Investment Act. The State Investment Pool is duly chartered and administered by the State Treasurer's Office and consists of US Treasury bills and notes, collateralized certificates of deposit and repurchase agreements. GASB Statement No. 3 requires the City to assign risk categories for its investments, except those in which securities are not used as evidence of the investment. The Pool has not been assigned a risk category since the City is not issued securities, but rather it owns an undivided beneficial interest in the assets of the Pool.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 2 – CASH AND INVESTMENTS (CONTINUED)

State Investment Pool (Continued)

The Pool is not registered with the Securities and Exchange Commission or any other regulatory body nor is any balances insured by the Federal Deposit Insurance Corporation. Financial reports are available from the Idaho State Treasurer's Office upon request.

The balances above that the City has in the State Investment Pool are carried at amortized cost, which is permitted pursuant to GASB 31, and calculated on a monthly basis. The City's portion of the State Investment Pool had an unrealized gain of \$3,089 as of September 30, 2020, which has not been reflected in the financial statements.

State statutes authorize the City to invest in U.S. Government obligations and its agencies, obligations of Idaho and its agencies, fully collateralized repurchase agreements, prime domestic commercial paper, prime domestic bankers' acceptances, government pools, and money market funds consisting of any of these securities listed. No unauthorized investment transactions were carried out by the City during the year.

Investments

GASB Statement No. 40 requires the City to assign risk categories for its investments, except those in which securities are not used as evidence of the investment. Credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. The short-term investment pools are not evidenced by securities that exist in physical or book entry form and accordingly, are not categorized for credit risk.

NOTE 3 – RECEIVABLES & DEFERRED REVENUE

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include property taxes collected by Bonner County and taxes collected by the State of Idaho.

Business-type activities report water billings as their major receivables.

Water usage receivables, net \$42,638

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to pay liabilities of the current period. Under the modified accrual basis of accounting only revenue which is measureable and available, is recognized in financial statements of governmental funds. Because property taxes levied in a year may not be paid by the taxpayer for up to three years, the taxes are not available as a spendable resource until received. Property taxes levied but not recorded by the City within 60 days after September 30 are reflected on the accompanying financial statements as unavailable revenue.

The following is a schedule of property taxes assessed for the year, collected and remaining to be received.

Year	Balance 9/30/2019	Lewy 2019	Adjustments & Collections	Balance 9/30/2020
2010-2019	\$ 5,783	\$ 78,134	\$ 77,360	\$ 6,557

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 3 – RECEIVABLES & DEFERRED REVENUE

In accordance with NCGA Interpretation #3, revenue, which is not received within 60 days of the year-end, has been reflected as deferred revenue. The balance as of September 30, 2020 is as follows:

Taxes due at September 30, 2020	\$	6,557
Received October 2020		(141)
Received November 2020		-
Total	\$	6,416

The analysis of accounts receivable and due from other governments is as follows:

GENERAL FUND		
State Revenue Sharing	\$	7,917
State Liquor		9,137
Franchise Fees		899
Sales Tax		3,740
Other		267
Total	\$	21,960
STREET FUND		
Highway Users	\$	7,367
Total	\$	7,367

NOTE 4 – CAPITAL ASSETS

The changes in capital assets used in governmental activities during fiscal year 2019/20 were as follows:

	Balance 9/30/19	Additions	Disposals	Adjustments	Balance 9/30/20
Governmental Activities					
Capital assets being depreciated:					
Buildings & Improvements	\$ 681,470	\$ 13,071	\$ -	\$ -	\$ 694,541
Equipment	531,848	80,949	17,699	4,258	599,356
Total capital assets being depreciated	1,213,318	94,020	17,699	4,258	1,293,897
Total accumulated depreciation	737,132	64,474	10,998	5,609	796,217
Total governmental activities capital assets, net	\$ 476,186	\$ 29,546	\$ 6,701	\$ (1,351)	\$ 497,680

Because the City is a Phase 3 government (governments with total annual revenues of less than \$10 million), the City is encouraged but not required to report major infrastructure assets retroactively.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 4 – CAPITAL ASSETS (CONTINUED)

The changes in capital assets used in business-type activities during fiscal year 2019/20 were as follows:

	Balance 9/30/19	Additions	Disposals	Adjustments	Balance 9/30/20
Business-Type Activities					
Capital assets being depreciated:					
Water assets	\$ 1,113,678	\$ 7,603	\$ -	\$ 4,527	\$ 1,125,808
Total accumulated depreciation	691,630	32,115	-	3,176	726,921
Total business-type activities capital assets, net	<u>\$ 422,048</u>	<u>\$ (24,512)</u>	<u>\$ -</u>	<u>\$ 1,351</u>	<u>\$ 398,887</u>

Depreciation expense was charged to function as follows:

Governmental Activities	
General Government	\$ 4,806
Fire Department	27,767
Cemetery	197
Parks & Recreation	2,975
City Shop	809
Street	27,920
	<u>\$ 64,474</u>
Business-Type Activities	32,115
	<u>\$ 32,115</u>

NOTE 5 – COMPENSATED ABSENCES

Changes in compensated absences payable for the year ended September 30, 2020 are as follows:

	Balance 9/30/19	Increases	Decreases	Balance 9/30/20
Governmental Funds	\$ 2,070	\$ 734	\$ -	\$ 2,804
Enterprise Funds	517	184	-	701
	<u>\$ 2,587</u>	<u>\$ 918</u>	<u>\$ -</u>	<u>\$ 3,505</u>

NOTE 6 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is a member in the Idaho Counties Risk Management Program (ICRMP). ICRMP was created to provide risk management and insurance services to public entities in Idaho. ICRMP itself is a public entity. The City pays an annual premium for all risks of physical loss or damage to real and personal property, general liability, City Council legal liability and employee dishonesty. The effective coverage period is October 1 to September 30. There have been no significant reductions in insurance coverage from the prior year and settlements have not exceeded coverage in the past four years.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 7 – INTERFUND BALANCES AND ACTIVITY

Balances due to/from other funds at September 30, 2020 consist of short term loans between the general fund and the water fund

NOTE 8 – ASSIGNED FUND BALANCE

The General and Street Funds currently have assigned portions of their respective fund balances in the amount of \$270,160 and \$100,784, respectively, to be used for future planned capital expenditures. The City has designated amounts for law enforcement capital purchases, fire department building improvements, street projects, and street equipment purchases.

NOTE 9 – PENSION PLAN

The City of Clark Fork contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) that are adequate to accumulate sufficient assets to pay benefits when due.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 9 – PENSION PLAN (CONTINUED)

The contribution rates for employees are set by statute at 60% of the employer rate for general employees and 72% for police and firefighters. As of June 30, 2020, it was 7.16% for general employees and 8.81% for police and firefighters. The employer contribution as a percent of covered payroll is set by the Retirement Board and was 11.94% for general employees and 12.28% for police and firefighters. The City's contributions were \$9,533 for the year ended September 30, 2020.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2020, the City reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2020, the City's proportion was 0.0024233 percent.

For the year ended September 30, 2020, the City recognized pension expense of \$21,474. At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,397	\$ 1,837
Changes in assumptions or other inputs	952	-
Net difference between projected and actual earnings on pension plan investments	6,450	-
Change in the District's proportion and differences between the City's contributions and the City's proportionate contributions	2,865	702
District's contributions subsequent to the measurement date	2,542	-
Total	<u>\$ 17,206</u>	<u>\$ 2,539</u>

\$2,542 reported as deferred outflows of resources related to pensions resulting from City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2020.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2018 the beginning of the measurement period ended June 30, 2019 is 4.8 and 4.8 for the measurement period June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year ended September 30:	
2021	\$ 790
2022	3,224
2023	3,918
2024	4,191

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 9 – PENSION PLAN (CONTINUED)

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases*	3.75%
Salary inflation	3.75%
Investment rate of return	7.05% net of investment expenses
Cost-of-living adjustments	1.00%

*there is an additional component of assumed salary growth (on top of the 3.75%) that varies for each individual member based on years of service

Mortality rates were based on the RP - 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

An experience study was performed for the period July 1, 2013 through June 30, 2017 which reviewed all economic and demographic assumptions other than mortality. The Total Pension Liability as of June 30, 2020 is based on the results of an actuarial valuation date July 1, 2020.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of 2020.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 9 – PENSION PLAN (CONTINUED)

Capital Market Assumptions from Callan 2020

Asset Class	Target Allocation	Long-Term Expected Nominal Rate of Return (Arithmetic)	Long-Term Expected Real Rate of Return (Arithmetic)
Core Fixed Income	30.00%	2.80%	0.55%
Broad US Equities	55.00%	8.55%	6.30%
Developed Foreign Equities	15.00%	8.70%	6.45%
Assumed Inflation - Mean		2.25%	2.25%
Assumed Inflation - Standard Deviation		1.50%	1.50%
Portfolio Arithmetic Mean Return		6.85%	4.60%
Portfolio Standard Deviation		12.33%	12.33%
Portfolio Long-Term (Geometric) Expected Rate of Return		6.25%	3.89%
Assumed Investment Expenses		0.40%	0.40%
Portfolio Long-Term (Geometric) Expected Rate of Return, Net of Investment Expenses		5.85%	3.49%

Investment Policy Assumptions from PERSI Board Nov 2019

Portfolio Long-Term Expected Real Rate of Return, Net of Investment Expenses	4.14%
Portfolio Standard Deviation	14.16%

Economic/Demographic Assumptions from Milliman 2018

<u>Valuation Assumptions Chosen by PERSI Board</u>	
Long-Term Expected Real Rate of Return, Net of Investment Expenses	4.05%
Assumed Inflation	3.00%
Long-Term Expected Geometric Rate of Return, Net of Investment Expenses	<u><u>7.05%</u></u>

Discount Rate

The discount rate used to measure the total pension liability was 7.05%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Financial Statement
September 30, 2020

NOTE 9 – PENSION PLAN (CONTINUED)

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.05 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.05 percent) or 1-percentage-point higher (8.05 percent) than the current rate:

	1% Decrease (6.05%)	Current Discount Rate (7.05%)	1% Increase (8.05%)
City's proportionate share of the net pension liability (asset)	\$ 115,399	\$ 56,272	\$ 7,384

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the pension plan

At September 30, 2020, the City reported no payables to the pension plan.

NOTE 10 – CONTINGENCY

The City evaluated its September 30, 2020 financial statements for subsequent events through the date the financial statements were issued. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which may negatively impact the City's operations and cash flows. The potential impact to the City is unknown at this time.

NOTE 11 – PRIOR PERIOD ADJUSTMENT

In the Government-wide statements, net capital assets were erroneously overstated in the governmental activities and understated in the business-type activities. Following is a reconciliation of the restated beginning net position as shown with the prior period adjustment on the Statement of Activities and the Statement of Revenues, Expenses, and Changes in Net Position – Proprietary Funds:

	Governmental Activities	Business-type Activities
Net position- beginning	\$1,076,687	\$852,166
Prior period adjustment:		
Capital assets	(3,377)	3,377
Accumulated depreciation	2,026	(2,026)
Total prior period adjustment	(1,351)	1,351
Net position- beginning, as restated	<u>1,075,336</u>	<u>853,517</u>

See accompanying independent auditors' report.

CITY OF CLARK FORK
Notes to the Budget and Actual Statement
September 30, 2020

Budgets are adopted for the general, street and enterprise fund. The annual budget is a plan of financial operation with an estimate of expenditures and means of financing them. A preliminary budget is prepared in July, budget hearings are held, and the final budget is adopted by October 1.

The adopted budget constitutes the appropriations for the City and is the maximum limit of expenditures in each budgeted fund. The adopted budget may be amended for emergencies and other matters as provided by State law. There was one budget amendment for the fiscal year 2019/20.

The budget is prepared on the basis of accounting described for its governmental funds in Note 1 to the financial statement. Tax levies are set by expenditure requirements, but are authorized and limited by State law. Transfers of budget authority within a fund are permitted. Appropriations lapse at September 30.

The amounts shown in the budget column of the schedule are the original and final budgeted amounts. State law requires only that a fund's total expenditures not exceed total budgeted expenditures.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the City Council
City of Clark Fork, Idaho

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Clark Fork, Idaho as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Clark Fork, Idaho's basic financial statements and have issued our report thereon dated January 21, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Clark Fork, Idaho's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Clark Fork, Idaho's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Clark Fork, Idaho's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as item #2020-1 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Clark Fork, Idaho's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Clark Fork, Idaho's Response to Findings

City of Clark Fork, Idaho's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. City of Clark Fork, Idaho's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF CLARK FORK
Schedule of Findings and Responses
September 30, 2020

2020-1

Segregation of Duties

The size of the City's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were large enough to provide optimum segregation of duties.

Criteria

Proper segregation of duties requires an accounting system that provides adequate internal controls, which includes a design that ensures no one individual is involved with a transaction from its beginning to its end.

Condition

The size of the City's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were large enough to provide optimum segregation of duties.

Effect

This situation dictates that the Council remains involved in the financial affairs of the organization to provide oversight and independent review functions in an effort to mitigate the possible effects of the lack of segregation of duties that exists within the City.

Cause

The City does not have enough staff to adequately segregate all accounting functions.

Recommendations

Our recommendation for the City is to consider increasing the staff size to allow for adequate segregation of duties or to involve a City Council member in more aspects of the financial reporting process.

Views of Responsible Officials

The City Council is aware of this situation and therefore the Council takes a proactive stance to minimize a potential loss.

With two paid office personnel, one writing checks and the other confirming the transaction before signing. This gives a degree of segregation we did not have several years ago. Next, a signature from a Council member or Mayor is also required for every check written. The check is presented for review and signature along with two supporting documents; 1. A copy of the statement showing the itemized breakdown of the purchase, and 2. The approved purchase order. All three items: The Check, The Statement and The PO must have the same dollar amount before signing.

While this situation is not optimal for the best accountability practices as recommended, it is the best option within the financial constraints we are bound.
